#### BLOBULUS, 2022

Robert Stenzel

Blobulus is an animatronic creature that spawned itself from all the ideas that brew inside your morning cup of coffee (or tea). Fueled by lost left socks and mismatched Tupperware lids, Blobulus chugs along spreading the good word that you can be anything you want or desire. Stare into its void and watch the impossible become possible.

#### NIGHT VISIONS PROJECTED GALLERY | October 13 - 16, 2022

Outdoor projected galleries will be placed in two locations throughout the Village. Works included in this program were selected from an international open call to artists working in all media, and the invited curatorial teams from Norway & Poland.
